Indoor Flying

Tom Kirk of Henson Disposal and Kirk C&D Recycling has again agreed to sponsor electric flying at Game Time Gym II in Bloomington, IL. (This is near the airport on Bloomington's East side).

Friday, January 7th
 Friday, January 21st
 Friday, February 18th

7:00 PM until 9:00 PM, must be out of building by 9:15 PM.

Aircraft are limited to:
 Foamies or other light light planes suitable to slow indoor flying.

Blade mCX or Blade CX or Blade CP size helicopters, or other similar smaller micro size helicopters are great too. 400/450 size helicopters are allowed, but are strictly limited to low level practice hovering in the farthest corner. Please check with organizers for instructions.

\$10 fee for pilots.
 \$5 fee for pilots 18 years of age and younger.
 \$3 fee for spectators on the flight line, free spectators behind the safety nets.

Directions:

From Veterans Parkway, take rt. 9 East toward the Bloomington-Normal Airport. Continue past the airport to Towanda-Barnes road. Turn right on Towanda-Barnes road and head south to Oakland Avenue. Make a right turn on Oakland and follow to Olympia Drive. Turn left on Olympia Drive and Game Time Gym II will be the 2nd building on your left.

404 Olympia Drive, Bloomington, IL 61704

Club Newsletter Editor Seeks Apprentice/Assistant

Your editor is ready to pass this honorable office on to an individual who desires to learn web administration and desktop publishing.

Family issues (my Dad is very ill) pull me away from this duty. I have missed some deadlines due to being away attending to this and anticipate more time being spent away.

The candidate will receive full training on these subjects and more. Apply 309 868 4227.

SIRS, Inc. Meeting Minutes - December 11, 2010

President Fred Logue cancelled the meeting due to adverse weather conditions. The roads were covered in "black ice".

Odd News Bits:

Functioning as a true VTOL (Vertical Take Off and Landing) fixed wing aircraft, Snelflight's Jump Jet can not only hover, but can fly forwards, backwards and even sideways thanks to being powered by four pivoting propellers which not only offer supreme stability across the flight envelope but also offers vectored thrust allowing for full, unrestrained and amazingly precise, fully three dimensional movement.
